

eParking is the only Finnish application for parking and charging the electric cars

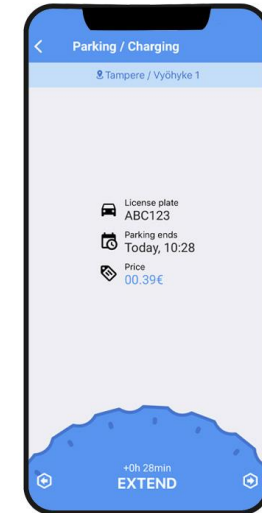

Download the application and create your account
Download the application from the application store.
Register as a user.

Choose the parking zone
The application asks permission to use location. It advises you what kind of parking and charging for cars are possible in the parking zone. Choose the zone by clicking from bottom of the screen.

Start parking
Set the time by rolling the disk and press start. The application asks for payment card number and license number.

Extend the parking time
Choose the ongoing parking. By rolling the disk you can change the parking time. By pressing stop you can end the parking. You will get a receipt to your email.

Service fee only 0,39 euro
